

A ST. LOUIS PARK LANDMARK

Oak Knoll Animal Hospital has served the people and pets of St. Louis Park for decades.

The medical staff at Oak Knoll is trained in the most current treatments available in veterinary medicine today. And they do it all with the same level of care that the clinic has always been known for. The clinic has a good working relationship with the network of veterinary medical and surgical specialists in the Twin Cities, ensuring the best possible care for your pet.

Oak Knoll Animal Hospital is St. Louis Park's best choice for state-of-the-art medical care combined with friendly compassionate service. We look forward to providing you and your pets with superior care.

MEET THE OWNERS

Dr. Jeremy Smith is a graduate of the University of Minnesota College of Veterinary Medicine. He earned a Bachelor of Science degree in Zoology from Iowa State University. Away from the clinic, he balances a busy household of kids and pets with time for his hobbies: fishing, barbecuing, and reading.

Dr. Tracy Earl earned her Bachelor of Arts degree from St. Olaf College and her Doctorate from the University of Minnesota. Dr. Earl has taken particular interest in laser surgery and performs surgery at the state fair every year. She currently owns two cats named Dublin and Paisley and enjoys outdoor activities, gardening and home decorating in her spare time.

**Get the best care
for your pet.**

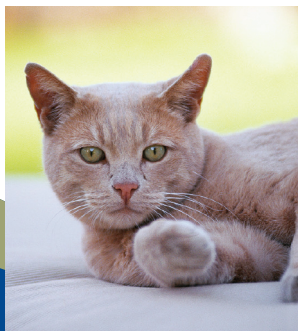

Thank you for choosing us as your veterinary care provider. At Oak Knoll, we strive to provide the most current veterinary wellness care as well as the information you need to maintain your pet's health day to day. In the event that your pet becomes ill, we have access to state-of-the-art diagnostic tools to help determine the best course of medical action.

MISSION STATEMENT

We will provide high quality veterinary care through wellness exams, state-of-the-art diagnostics and progressive medical and surgical therapies.

We are committed to maintaining a compassionate, knowledgeable, qualified staff and to increasing our clients' understanding of their pets' health.

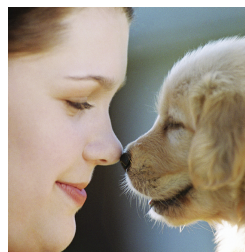

Our in-house laboratory allows same day results on many blood and urine tests. Our radiology department is equipped to take full body x-rays and dental x-rays. By using digital technology, we have immediate access to x-rays, which provides rapid feed back on your pet's health.

“What makes
Oak Knoll
Animal Hospital
unique?”

WELLNESS CARE

At each visit, your pet will be thoroughly examined by a veterinarian, to help determine whether he/she is healthy enough to receive vaccinations, and to reveal underlying medical problems early in the course of disease. The doctor will tailor a vaccine and wellness protocol that meets your pet's needs, and will answer questions you have about maintaining a healthy lifestyle for your pet.

LASER SURGERY

We utilize a CO₂ laser for many surgical procedures. The laser seals nerve endings and small blood vessels as it cuts. For your pet, this means less post-operative pain and bleeding. Your pet typically will return to normal activity more quickly after surgery.

DENTAL CARE

Oak Knoll is able to provide comprehensive dental services for your pet, as well as important information regarding at-home dental maintenance. Routine dental prophylaxis includes scaling, polishing and applying fluoride and a sealant to your pet's teeth while he or she is under anesthesia. At that point, we will determine if there is a need for dental x-rays, we will apply an antibiotic gel to the gumline to help prevent invasion by bacteria and do any necessary tooth extractions.
